

1U D-RING CABLE MANAGEMENT KIT

The Kendall Howard 1U D-Ring Cable Management Kit gives installers and network technicians a flexible and functional cable management bracket that will easily manage all types of cables. With over 40 different configurations it is easy to manage cables vertically, horizontally, and diagonally. This cable management kit eliminates the need for dozens of other cable management brackets. Finally, there is a cable manager that can do it all.

FEATURES

5 Heavy Duty Steel D-Rings - Steel, powder coated D-rings feature numerous through holes so that they can be installed to the rackmount panel either vertically or horizontally. Pre-threaded holes on the mounting panel make installation a snap!

16 Flexible Nylon Clips - Latch gate style clips install with only fingertip pressure. The rectangular cable clips can be installed to run cables either vertically or horizontally.

Flanged Support Panel - Rack mountable panel is flanged for added strength and durability.

Universal Compatibility - Unique cable manager can be installed in just about any rack configuration. From 2-post racks, 4-post racks, server enclosures, to wall mount racks and cabinets.
