Your New Performance Workstation

Congratulations on your new Kendall Howard Performance LAN Station Workbench. This manual will step you through the assembly process. If you have trouble, please feel free to call our customer service department from 8:30 AM to 5:30 PM CST.

Step 1. Inventory

Please be sure that you unpack the crate completely and take a complete inventory of what you have received. This will save you much time if parts are missing and you have to stop in the middle of the build process. We take every precaution to ensure that you do receive all parts required; however accidents do happen in shipping that may cause the loss of a key part. If you suspect that you are missing parts, please contact our customer service department immediately at 651-340-1400. You will need to have your order confirmation number before you call.

| PART | QTY | PART | QTY |
|-------------------------------|-----|-------------------------------|------------------------------|
| Levelers | 4 | 3/4" Round Plastic End Cap | 16 |
| Table Sides (1 left, 1 right) | 2 | 1 1/2" Square Plastic End Cap | 4 |
| Cross Bars | 6 | 1 1/2" x 2" Rectangle End Cap | 4 |
| Upper Shelf Supports | 4 | Channel Nut | 8 |
| Upper Shelf Channels | 2 | 1 1/2 Hex Drive Bolt | 16 |
| Lower Shelf | 1 | 2 1/2" Hex Drive Bolt | 4 |
| Upper Shelf | 2 | T-Handle Hex Wrench | 1 |
| Work Surface | 1 | Cross Head Screw | 12 (24") |
| Cable Tray/Back Support | 1 | | 15 (48"), 24 (72"), 30 (96") |

Step 2. Assemble the Upper Shelves

Place the upper shelves so that the hardware inserts are facing up. Next, place one of the cross bars on the shelf lining up the holes on the shelf with the brackets on the cross bar. Insert (2) cross head screws but **DO NOT FULLY TIGHTEN**. You will notice a small gap between the bracket and the shelf. This was designed so that after the bench is assembled, you will tighten all the cross head screws which will pull the shelf down tight against the frame.

With the shelves still in the same position as in step 2, place a left and a right shelf support on the shelf and attach with (2) 1 ½ Hex Drive Bolts.

Step 3. Assemble the Work Surface

With the work surface placed with the hardware inserts facing up, attach 2 cross bars to the shelf with (4) cross head screws but **DO NOT FULLY TIGHTEN**. You will notice a small gap between the bracket and the shelf. This was designed so that after the bench is assembled, you will tighten all the cross head screws which will pull the shelf down tight against the frame.

Step 4. Assemble the Lower Shelf

Place the lower shelf so that the hardware inserts are facing up. Next, place two of the cross bars on the shelf lining up the holes on the shelf with the brackets on the cross bar. Insert (4) cross head screws but **DO NOT FULLY TIGHTEN**. You will notice that one of the crossbars will overlap the shelf. This feature will be used if you purchased the bottom add-on shelf.

Step 5. Frame Assembly

On this step you may want to have someone help you with the assembly. Attach the Lower shelf to left side with (2) 1 ½ Hex Drive Bolts. Next assemble the Right side in the same way. **DO NOT FULLY TIGHTEN YET.**

Screw in the (4) Levelers provided into the bottom of the frame (Not shown in the picture). If you purchased the optional caster kit, you may replace the levelers with the casters at this point.

Step 6. Attach the Work Surface

Stand the bench in its upright position and place the work surface on top of the bench. Attach work surface with (4) 1 ½ Hex Drive Bolts on each side. You may now tighten both the Hex Drive Bolts and the cross head screws on both the work surface and the lower shelf.

Step 7. Attach Cable Tray and Shelf Channels

Place the Cable Tray/Shelf Support in the correct position and insert (4) 2 1/2" Hex Drive Bolts. Next, turn the Channel Nut onto each of the 4 bolts just until the nut is flush with the end of the bolt and pointing up. **IMPORTANT: MAKE SURE THAT THE GROOVES IN THE CHANNEL NUT ARE FACING THE BENCH.** There should be about 1" of space between the nut and the frame.

Hold the shelf channel over the (2) channel nuts while tightening the Hex Drive Bolts with T-Handle provided. As you tighten the bolts, the channel nuts will turn and lock into place. Make sure when completing this step that both channels are at the same height.

Step 8. Attach Upper Shelves

Insert a 1 ½ Hex Drive Bolt into each shelf support hole and place a channel nut onto the bolt as you did for step 9. Remember to keep the hex bolt facing up and down. Place the shelf on the shelf channel with the channel nuts inside. Tighten the bolts and cross head screws. Make sure these bolts are very tight.

Step 9. Add the Plastic End Caps

Insert the plastic end $\frac{3}{4}$ " round caps into the left and right side frames as well as the upper shelf supports.

Maintaining Your New Workbench

Your new Kendall Howard Performance Workbench is constructed with some of the highest quality materials available today. To keep your Workbench looking new, we recommend cleaning it regularly damp cloth using a mild soap and water solution.

- **Do not use abrasive cleaners.**
- **Keep work surface away from petroleum products**
- **Keep away from open flames. Shelving is constructed from a wood product and is not fire proof.**
- **If you opted for casters on your bench, moving the bench around may loosen the hardware over time. Periodically check that all bolts and screws are tightened.**
- **Do not exceed the weight thresholds for your bench. This could result in serious injury or death.**
