

UNDER RACK PANEL

The AisleLok® Under Rack Panels is the premium choice for your facility. Its revolutionary sealing technology was designed to allow easy modifications creating the flexibility to seal large and unique openings. The panel is a quick and easy way to improve airflow management and may immediately improve IT equipment intake air temperature.

Part No.	Description
GL10126	27.5" Adhesive under rack panel, 27.5" X 4.53" X 1"
GL10127	31.5" Adhesive under rack panel, 31.5" x 4.53" x 1"
GL10226	26" Magnetic under rack panel, 26" X 4.75" X .06"
GL10227	33.5" Magnetic under rack panel, 31.25" X 4.75" X .06"

**Each product comes in a case pack of 10.*

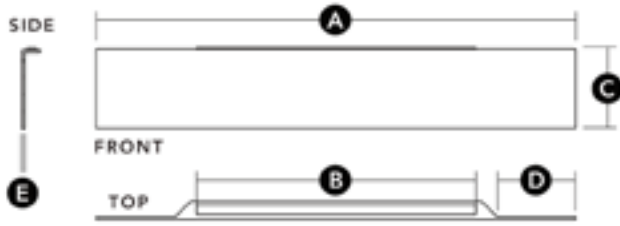

FEATURES

- Two designs which feature longer, durable sealing panels (27.5" and 31.5") which are customizable to seal a variety of gaps under the server rack
- Soft, flexible sealing material easily forms under the rack and can be customized as needed
- Tool-less application
- Under Rack Panel seals more effectively than a comparable brush without sagging
- AisleLok® products are compliant with directive 2002/95/EC of the European Parliament and the Council on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electric Equipment (RoHS)
- Pre-scored lines on the back of the Under Rack Panel allows for easy and tool-less removal of excess material when needed

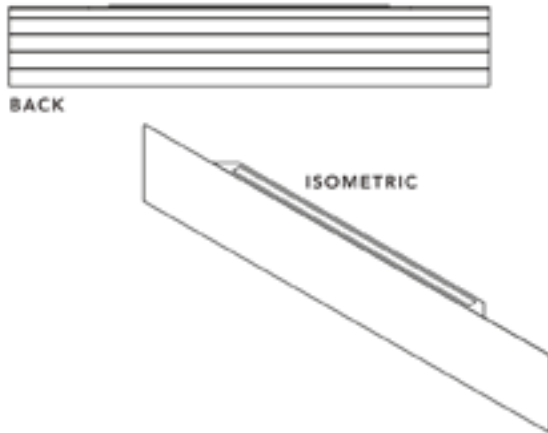

BENEFITS

- Lower cost for filling a higher number of missing U space
- Eliminates re-circulation inside the cabinet and "hot spots" at equipment intakes due to re-circulation
- Compliments and enhances the performance of existing blanking panels in the server rack
- Supports equipment cabinet best practices of isolating exhaust air at the back of the cabinet
- Improves IT equipment reliability and extends equipment life
- Supports increasing rack and density
- Increases existing cooling unit capacity

ADEHSIVE UNDER RACK PANEL

Dimensions in Inches					
Item	A	B	C	D	E
10126	27.5"	16"	4.53"	4.52"	.06"
10127	31.5"	20"	4.53"	4.52"	.06"

SEALING EFFECTIVENESS

Patented design is a more effective method of sealing airflow under the rack than using comparable brushes or fill materials.

CONSTRUCTION

The Under Rack Panel is made from .06" Durable PVC
 Finish: Black
 Flammability Rating: UL94 HB

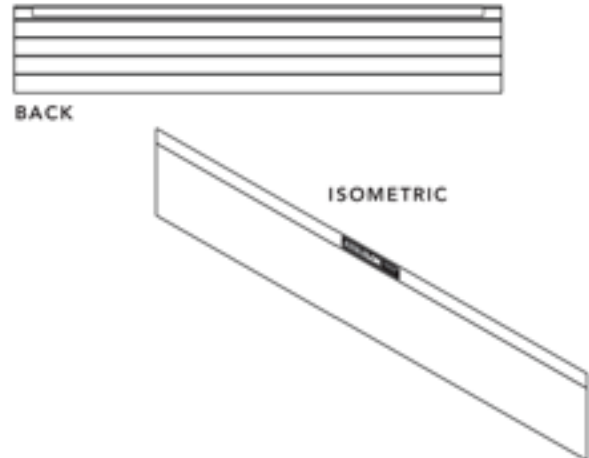

MOUNTING SYSTEM

Custom adhesive mounting kit consisting of: Double-sided adhesive backing pre-attached to the Rigid PVC Mounting Frame

MAGNETIC UNDER RACK PANEL

Part No.	A	B	C
10226	26"	.06"	4.75"
10227	33.5"	.06"	4.75"

SEALING EFFECTIVENESS

Patented design is a more effective method of sealing airflow under the rack than using comparable brushes or fill materials.

CONSTRUCTION

The Magnetic Under Rack Panel is made from .06" (1.5mm) Durable PVC
 Finish: Black
 Flammability Rating: UL94 HB

MOUNTING SYSTEM

The AisleLok® Rack Top Baffle features a clear polycarbonate panel mounted to a rigid PVC extrusion base. The magnetic tails are constructed of a PC/ABS material.
