Channells' GOAT Pedestals (GP) are high-performance pedestals that provide field-proven protection for any outside plant application. The pedestals come in four different sizes to accommodate a wide-range of fiber, CATV, power, and copper equipment.

GOAT pedestals are based on a field-proven design which has been deployed for over 30+ years. These rugged and lightweight thermoplastic enclosures meet and exceed industry performance standards while offering the lowest total cost of ownership.

FEATURES AND BENEFITS

Feature	Benefit
Available in 8x8, 10x10 and 12x12, 14x20 footprints	Capable of being utilized in multiple applications (fiber, copper, CATV, power, and others)
Ground line mounting	Standard 11" ground line for direct bury consistency in installation practices
Internal Mounting Flexibility	Various bracketry options available to accommodate multiple types of equipment and Channell splice closures/terminals
Green Hornet closure and Yellow Jacket terminal compatible	Fully encapsulated closure/terminal options for maximum protection in above ground applications
Self-lock feature withvarious locking options	P-Key, LB Bolt and hex lock patterns provide flexibility while adding security
Robust metal stake and frame	High-strength steel stakes and metal framing for long-term reliability and robustness
Optional Ground Lug	Separate ground bar kit available for safely grounding armored cable
