Interior

Product Description

Multilink Hinged Overlay Molding Raceway System is a 2 piece design with a base and cover. The molding can be used to route and protect cabling for low voltage data, voice, video, and fiber optic applications. Fittings are available for routing direction changes, extensions, and termination of the molding. All fittings incorporate a 1" minimum bend radius as recommended for fiber optic cables. The molding is manufactured using a special purpose profile extrusion alloy resin and the fittings are manufactured using an injection grade resin. The product is easily painted with latex paint.
