# Fiber Drop Gel Splice Kit

Product Description

Introducing Multilink's 6 fiber splice enclosure. This product is intended to provide a splice enclosure for small diameter small count fiber optic cable. It has the capacity to splice up to 2 cables / 6 fibers. It accepts various cable types including; round, dielectric or armored, as well as flat drop with tone wire. This enclosure utilizes Multilink's revolutionary Gel Seal technology. This gel has been used for numerous years in direct buried applications with resounding success. Due to its small size as well as its ability to be used in butt or through splice configurations it works for most applications.
